

West Yorkshire BABCP Branch: Forthcoming Event

Functional Analysis in Practice I: Chronic Fatigue Syndrome (CFS)

Suzanne Moore - Clinical Nurse Specialist in CBT, LPFT
&
Alec Brady - Senior Cognitive Behavioural Psychotherapist,
Barnsley PCT

“There is a variety of ways of conducting a Functional Analysis, and of deriving a treatment plan from it. This practice-oriented session will use a version of Frankel’s *Response Chain Analysis*. Attendees will learn to formulate the difficulties of a client with Chronic Fatigue Syndrome, and to identify treatment options, using this approach”

If possible, participants are asked to bring along details of a case of CFS, to be used in a one-to-one practice.

Friday 9th April 2010

9.30 – 12.30pm

Location: Training Room 3, Becklin Centre
St James’s Hospital, Leeds

BABCP members = £5.00; Non-members = £10.00

There is no need to book for this event. Payment will be taken on the day and attendance certificates provided.

Please note, there is no parking at the Becklin Centre but you can use the car park behind the building.
